Profile Summary:

Experienced Technical Lead with 6 years of expertise in UI development and a proven track record of success. Skilled in leading front-end development teams, optimising website performance, and mentoring junior developers. Proficient in managing multiple projects, providing technical insights to pre-sales teams, and migrating legacy systems to modern web applications. Adept at conducting code reviews, implementing best practices for website security, and delivering training sessions on Angular development. I am known for collaborating effectively with cross-functional teams, driving organic traffic growth through SEO strategies, and enhancing user experiences across various devices.

Professional Experience:

People10 Technosoft Pvt. Ltd., Bangalore - (March 2020 - Present)

Technical Lead (April 2024 - Present):

Technical Lead overseeing front-end development team, collaborating with UX/UI designers and back-end developers. Collaborated with QA teams for rigorous testing and bug resolution.

Achieved a 30% decrease in page load times through code and asset optimisation. Improved website security through the implementation of best practices and regular audits.

Mentored junior developers, fostering skill development within the team. Launched Peer Learning program. Conducted Angular training sessions for the development team on best practices.

Conducted regular code reviews to maintain quality and best practices adherence.

Managed company website and blog with SEO practices, resulting in a 30% increase in organic traffic.

Managed multiple projects meeting tight deadlines and high-quality standards. Provided technical inputs to the pre-sales team as part of the SME group.

Key role in migrating legacy systems to modern web applications (e.g., Angular.js to Angular 9). Participated in front-end interviews for new hires.

Developed reusable components and NPM libraries for project efficiency. Managed third-party integrations (e.g., payment gateways, analytics tools, social media) to enhance user experience.

Sulopa Technology Pvt. Ltd., Bangalore - (April 2018 - March 2020)

Software Engineer:

Developed 40+ fully responsive, mobile-friendly, cross-browser compatible static websites using HTML5, CSS3, JavaScript, jQuery, and Bootstrap. Additionally, created over 15 websites using WordPress and 2 fully responsive web applications using Angular.

Developed a hybrid mobile application with Ionic 4, successfully published on the Google Play Store and Apple App Store.

Managed over 50 websites across diverse hosting environments
