## PROFESSIONAL SUMMARY

---

Technical Lead with 8+ years of front-end development experience in Angular and TypeScript. Spearheading high-performing UI engineering teams of 5+ developers orchestrating scalable solutions for educational recruitment platforms serving 1-2M users monthly. Delivered 40% optimization in website performance through code refinement and architectural advancements, resulting in increased user retention and reduced infrastructure costs. Proficient in mentoring engineers, modernizing legacy systems (Angular.js to Angular 9+), and translating technical strategy into measurable business outcomes. Strong background in performance optimization, security implementation, and pre-sales technical enablement.

## PROFESSIONAL EXPERIENCE

---

### People10 Technosoft Pvt. Ltd.

March 2020 – Present

#### Technical Lead

Bangalore, India

- Designed and launched scalable UI infrastructure for a high-volume recruitment platform serving 1-2 million monthly users, directing a 5+ engineer team and coordinating with UX/UI and backend departments
- Achieved 40% reduction in page load times through comprehensive code optimization, asset minification, lazy loading implementation, and architectural improvements, elevated Core Web Vitals and boosted SEO rankings by 30%
- Established security best practices across platform (CORS policies, CSP headers, XSS prevention), resulting in zero security incidents and strengthened OWASP compliance
- Created and mentored comprehensive technical training program, conducted Angular and TypeScript workshops for 15+ junior developers, instituted peer learning program reducing onboarding time by 30%
- Executed rigorous code reviews and set coding standards/best practices, optimized code quality metrics and reduced production bugs by 25%
- Led migration of legacy Angular.js codebase to Angular 9+ architecture, built 30+ reusable components and released 5 internal NPM libraries improving development velocity by 35%
- Orchestrated seamless integration of payment gateways (Stripe), analytics platforms (Google Analytics), and social media APIs, ensured reliable data consistency and system performance across platforms
- Provided technical leadership to pre-sales team as Subject Matter Expert, presented solutions and technical roadmaps to prospective clients, participated in technical interviews and hiring initiatives

### Sulopa Technology Pvt. Ltd.

April 2018 – March 2020

#### Software Engineer

Bangalore, India

- Built and deployed 40+ fully responsive, mobile-friendly websites using HTML5, CSS3, JavaScript, jQuery, and Bootstrap, ensured cross-browser compatibility and accessibility compliance
- Developed 15+ WordPress websites and 2 feature-rich web applications using Angular, configured custom content architecture, theme customization, and performance optimization strategies for improved SEO rankings
- Engineered a hybrid mobile application with Ionic 4, released it on Google Play and the Apple App Store, earned 4.5+ star ratings, and oversaw lifecycle updates and user feedback iterations.
- Administered 50+ websites across multiple hosting environments

## TECHNICAL SKILLS

---

**Frontend Languages & Frameworks** : Angular 17, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Sass, Bootstrap, Responsive Web Design, Progressive Web Applications (PWA), Server-Side Rendering (SSR)

**State Management** : NgRx, RxJs

**Backend/APIs** : Node.js, Express.js, .NET, MongoDB, REST API

**Build Tools & DevOps** : Webpack, Vite, NPM, Yarn, Git, GitHub, Bitbucket, JIRA, CI/CD pipelines

**Testing & Quality Assurance** : Unit Testing (Karma, Jasmine, Jest), End-to-End Testing, Code Coverage Analysis)

**Web Technologies & CMS :** WordPress, Browser Caching, IndexedDB, LocalStorage, Web Hosting, Domain Management, Browser Caching, indexedDB, localStorage

**Specializations :** Performance Optimization, Security Implementation, SEO Best Practices, Cross-Browser Compatibility, Code Review Leadership, Developer Mentorship, SOLID Principles, SDLC, Technical Team Leadership

## LEADERSHIP & SOFT SKILLS

---

Team Leadership | Mentorship & Coaching | Technical Strategy & Architecture Design | Project Management | Stakeholder Communication | Release Management | Cross-functional Collaboration | Continuous Learning & Skill Development | Active Listening | Process Optimization

## OPEN SOURCE CONTRIBUTIONS

---

### ng-password-validator - NPM Package

Angular library for password validation open-sourced on NPM

- [NPM](#) | [Demo](#) | [GitHub](#)

### ngx-mode-switcher - NPM Package

Angular component library for theme switching (light/dark modes) released on NPM

- [NPM](#) | [Demo](#) | [GitHub](#)

### Password Generator - Google Chrome Extension

Utility tool for secure password generation.

- [Chrome Web Store](#) | [Demo](#) | [GitHub](#)

## EDUCATION

---

Bachelor of Technology (B.Tech) in Computer Science and Engineering
